PROFESSIONAL SUMMARY

Detail-oriented Computer Applications postgraduate (MCA, CGPA 8.66/10) with a strong foundation in full stack web development, REST API design, and database management. Hands-on experience building React-based front ends, Java/Spring Boot back ends, and Python applications, gained through academic projects and a full stack developer internship. Seeking an entry-level Software Developer / Full Stack Developer role to build scalable, reliable applications.

TECHNICAL SKILLS

- Programming Languages: Java, C, C++, Python, JavaScript
- Core Concepts: Data Structures, Object-Oriented Programming (OOPS), Algorithms, Software Development Life Cycle (SDLC)
- Web Development: HTML, CSS, Bootstrap, React.js
- Backend Development: REST APIs, Spring Boot
- Databases: MySQL, MongoDB
- Tools & Platforms: Git, GitHub, VS Code, Postman

EDUCATION

Master of Computer Applications (MCA) — CGPA: 8.66/10 <i>Kamaraj College, Thoothukudi</i>	2024 – 2026
B.Sc. Computer Science — CGPA: 8.35/10 <i>V. O. Chidambaram College, Thoothukudi</i>	2021 – 2024

PROFESSIONAL EXPERIENCE

Full Stack Web Developer Intern

Digisailor

- Developed responsive web applications using HTML, CSS, JavaScript, and React.js.
- Built and consumed REST APIs to connect front-end interfaces with backend services.
- Performed debugging and testing to improve application reliability and performance.
- Collaborated with cross-functional developers using Git and GitHub in an Agile environment.

PROJECTS

Hospital Management System

React.js, Bootstrap, HTML, CSS, MongoDB

- Developed a real-time web application to manage hospital operations, including patient records, appointment scheduling, and billing data.
- Designed a responsive user interface with React.js to improve usability and navigation.
- Integrated the front end with a MongoDB database through REST APIs for seamless data exchange.

Online Complaint / Ticket Management System

Java, Spring Boot, MySQL

- Built a role-based system to log, track, and resolve user complaints and support tickets.
- Developed REST APIs in Spring Boot to handle backend business logic and data operations.
- Implemented role-based access control to manage permissions across user types.

Universal Voice Reader

Python, OCR, Text-to-Speech

- Developed an application that extracts text from images using OCR and converts it to speech.
- Improved accessibility for users through real-time voice output and audio playback.

ACHIEVEMENTS & CERTIFICATIONS

- Presented a research paper on an IoT-based Smart Waste Management System.
- Completed the Desktop Communication Program.
- Completed the Animation and Graphics Program.
- Completed Soft Skills Development training (Communication & Logical Thinking).
- Participant, Rotary Youth Leadership Awards (RYLA).
